

## 01. PLANET THRALLDOOM

(Instrumental)

## 02. ENSLAVED

All over space we are taking control  
Slaving all races wherever we go  
Down on your knees, domination complete  
Pain and submission to satiate our greed

Out in the stars  
In a planet Godforsaken and lost  
Out in the stars  
Thousand years light far away from home

Civilizations we took from The Earth  
Mines in Thralldoom is the end they will find  
Forests of Helgnord for the viking tribe  
Dunes of Mub Harass for the egyptian kind

## 03. MENACE OF THE UNIVERSE

Chaos  
Confusion, pain and chaos  
The punishment and horror  
Across the Universe

Sorrow  
You'll feel the whip of sorrow  
The wrath of Ravial Tantrum  
Across the astral plane

They came from a distant galaxy  
Steeping into ecstasy  
To rule the worlds

They came setting up supremacy  
Storming with no clemency  
Throughout the worlds

Suffer  
Forevermore you'll suffer  
In constant fear and sadness  
Across the galaxies

Menace  
We bring the threat and menace  
A nightmare for the planets  
Obbey our discipline

## 04. DUNES OF MUB'ARASS

In this land of misery  
Infliction and slavery  
Too much blood was spilt  
Our people died for liberty

Dust and bones over the sands  
We must fight, we shan't be bland

It's the time to rise in arms  
Won't give in until we die  
Call upon the Gods Of War  
Onuris be our sacred guide

Time has come for revolution  
Time has come for us to blow them away  
Only victory or dying  
The rebellion will break out once and for all

## 05. SOLAR GHOSTS

(Instrumental)

## 06. TRIP TO HELGNORD

Somewhere far beyond the dunes  
In the land of ice  
Find the King Of Helgnord  
Go Masud, follow the runes  
Freedom's in your hands  
Gather all the viking clans

Wind and sun, cold and heat  
Travel through the arid sands of Dhalm  
Ice and snow, rain and storm  
Travel to the north and reach your goal

Thy command is my task  
No time for hesitation  
My mission will be over  
The way is long and risky  
I leave now, my master  
I'll give my life for Mubians liberty

We sneak between the shadows  
We cross the enemy lines  
No storm or heavy weather  
Will stop us 'til we die

Under the moons of Thralldoom  
We are creeping in the night  
Like serpents within shadows  
To avoid the Crawlian sight

## 07. VIKING PRIDE

Elders have told us stories  
About the old Planet Earth  
Roots of our people and culture  
Dawn of the human breed.

Odin is guiding our trail  
Sorrow and death you will find  
The Hammer of Thor will not fail  
We'll exterminate all your kind

Too many years of damnation  
Living in a mourning keen  
The day of revenge now is closer  
When we all be free like the wind

## 08. THE ORACLE

Lord Ravenous something is going on  
The Oracle has seen a vision  
Pictures of chaos, supremacy's gone  
The all seeing eye tells no lies

Rebels are gathering to start the revolt  
Trying to change our fate  
Future's uncertain we must get prepared  
Avoid the attack before it's too late

The crimson sky light fades away  
Turning to darkness  
One deadly silence hangs about  
Howling echoes mourn aloud  
The moons will cry out to the stars  
High in the heavens  
All clouds above are dyed in red  
Tears of blood will flow on earth

Prophecy is telling what you're gonna see  
Clear is the Spectral Sphere  
Get ready the troops for the final outcome  
Is coming The Day of sorrow and pain

## 09. DAWN OF WAR

Sun is rising in the sky  
Frozen dew upon the land  
UV rays melt the ice  
On this day of war you'll die

We are not afraid we won't surrender  
We are not afraid we won't give in  
Rather dead than living in sorrow  
Rather dead than living in pain

Look at the armies of humans united  
Standing on the horizon

Follow the sign of Helgnord  
Morning has broken, Dawn of War  
Heeding the call of the horns  
There is no turning back, Dawn Of War

Don't you dare to change your fate  
Never try to put us down  
You'd better give up and be a slave  
Otherwise you'll meet your grave

## 10. MARCH OF THE CRAWLIANS

Weapons armed and ready  
Legions sent to war  
Storming without mercy  
Kill and maim them all

They march to war beneath the star lights  
10.000 soldiers  
The clash is close the flag is waving  
March of the Crawlians

Heolfor obbey my orders  
Leave no sign of life  
Bring me the head of Khalid  
Ruin the viking tribe

## 11. TIME FOR DELIVERANCE

Lord, the battle's on their side  
Hate, I see it in their eyes  
Base of Zoldiath has been wrecked  
Hordes of humans everywhere

Bloodshed and dismay all across the planet  
Decaying flesh for the scavengers  
Victors cheer aloud in a jubilation chant  
Wielding up their weapons to the sky

Thralldoom's on fire, fire them all  
Alliance has succeed  
And mankind is victorious  
Fire, fire them all  
New age has been born  
Now it's time for deliverance

Blood and corpses on the ground  
Death is lurking all around  
Praise, invoke the Halig Gast  
The Sublife waits for us

## 12. NEW AGE

Many men are wounded  
And some others passed away  
Let us pray for the fallen ones

Great Moon is the witness  
Of the day when overcame  
Let us pray to the Gods above

And together we shall reign  
In the name of human kind

We die but I swear that we will return  
Life's gone but I swear that we will  
reborn

Spread the word of freedom  
From the North right to the South  
Tell our people that peace is at hand

Welcome to the new times  
Of harmony and peace  
And forever we'll cherish this land
